

Domov > Custom SCORM report overview

kineo_rep_deleted_users; ?>

Load report:

Custom SCORM report : kineo_rep_name?>

The custom SCORM report gives information on SCORM modules for a course or courses. Reports are generated by creating a number of settings, such as specifying which courses and users to report on or a date range for reporting.

Report settings

```
'; $sql = "SELECT * FROM kineo_filters where kineo_fil_report = " . $kreport; $count = 0; if ($kineofilters = get_records_sql($sql)) { foreach ($kineofilters as $kineofilter) { echo ' '. $kineofilter->kineo_fil_type.' ' ; if($kineofilter->kineo_fil_type=="User") { $fil_count = count(explode(",", $kineofilter->kineo_fil_data1)); if ($fil_count == 1) { echo($fil_count . " selected user"); } } else { echo($fil_count . " selected users"); } } if($kineofilter->kineo_fil_type=="Course") { $fil_count = count(explode(",", $kineofilter->kineo_fil_data1)); if ($fil_count == 1) { echo($fil_count . " selected course"); } else { echo($fil_count . " selected courses"); } } if($kineofilter->kineo_fil_type=="Unit") { $fil_count = count(explode(",", $kineofilter->kineo_fil_data1)); if ($fil_count == 1) { echo($fil_count . " selected unit"); } else { echo($fil_count . " selected units"); } } if($kineofilter->kineo_fil_type=="Category") { $fil_count = count(explode(",", $kineofilter->kineo_fil_data1)); if ($fil_count == 1) { echo($fil_count . " selected category"); } else { echo($fil_count . " selected categories"); } } if($kineofilter->kineo_fil_type=="Date") { if($kineofilter->kineo_fil_data1!="") { echo "from " . date("d M y",strtotime($kineofilter->kineo_fil_data1)) . " "; } if($kineofilter->kineo_fil_data2!="") { echo "to " . date("d M y",strtotime($kineofilter->kineo_fil_data2)); } } if($kineofilter->kineo_fil_type=="Custom profile field") { $sql = "SELECT * FROM mdl_user_info_field where id = " . $kineofilter->kineo_fil_data1; if ($userfields = get_records_sql($sql)) { foreach ($userfields as $userfield) { echo $userfield->name; } echo " : " . $kineofilter->kineo_fil_data2; } } if($kineofilter->kineo_fil_type=="SCORM lesson status") { $fil_count = count(explode(",", $kineofilter->kineo_fil_data1)); if ($fil_count == 1) { echo($fil_count . " selected status"); } else { echo($fil_count . " selected statuses"); } } if($kineofilter->kineo_fil_type=="SCORM total time") { if($kineofilter->kineo_fil_data1!="") { echo "more than " . $kineofilter->kineo_fil_data1 . " "; } } if($kineofilter->kineo_fil_type=="SCORM suspend data") { echo $kineofilter->kineo_fil_data1; } if($kineofilter->kineo_fil_type=="SCORM score") { if($kineofilter->kineo_fil_data1!="") { echo "more than " . $kineofilter->kineo_fil_data1 . " "; } if($kineofilter->kineo_fil_data2!="") { echo "less than " . $kineofilter->kineo_fil_data2 . " "; } } echo '   ' ; $count++; } } else { echo ' FiltersNo filters specified. To add a filter click the Add filter button. ' ; $count++; } echo ' Columns ' ; $sql = "SELECT * FROM kineo_columns where kineo_col_report = " . $kreport; if ($kineocolumns = get_records_sql($sql)) { $cols = array(); foreach ($kineocolumns as $kineocolumn) { $cols[] = $kineocolumn->kineo_col_name; } echo(implode(" , ", $cols)); } else { echo("No columns specified for report. Click edit to add columns."); } $count++; echo '  Deleted users ' ; if ($deleted_users==1) { echo("Included"); } else { echo("Excluded"); } } echo '  ' ; ?>
```

Custom SCORM report

This reporting tool allows you to view data on all aspects of your users' SCORM module usage, to filter data by category, course, user, time frame and custom profile fields.

It also allows you to load report filters, schedule reports to be run at regular intervals and be emailed to administrators, and export report data as Microsoft Excel format.

To begin, create a new report or load an existing report.
