

Can't make groups from Cohorts

I made a cohort :

System: available cohorts

Name	Cohort ID	Description	Cohort size	Source	Edit
UKGov			2	Created manually	Edit Delete Assign

I went to a course and enrolled them

Enrolment methods

Name	Users	Up/Down	Edit
Manual enrolments	2	↓	✕ 
Self enrolment (Student)	0	↑ ↓	✕ 
Cohort sync (UKGov - Student)	2	↑	✕ 
Add method <input type="text" value="Choose..."/>			

I went to groups and tried to enrol the whole cohort - they were there as individuals but not option to add a cohort
