

Clicking on feed name gives error

Clicking on link works

The screenshot shows a web browser window displaying the Moodle 'Manage all my feeds' page. The browser's address bar shows the URL: `sielearning.safensw.edu.au/moodle/blocks/rss_client/managefeeds.php`. The page header includes the Sydney Institute TAFE logo and a notification: 'You are logged in as Admin Moodle (Logout)'. A breadcrumb trail reads: 'My home > Blocks > Remove RSS Feeds > Manage all my feeds'.

On the left is a 'Settings' sidebar with a tree view containing: 'My profile settings', 'Site administration' (expanded), 'Notifications', 'Registration', 'Advanced features', 'Users', 'Courses', 'Grades', 'Location', 'Language', 'Plugins', 'Security', 'Appearance', 'Front page', and 'Server'.

The main content area is a table with the following structure:

Feed	Actions

At the bottom of the table is a button labeled 'Add a new feed'. Two blue arrows are overlaid on the image: one points from the text 'Clicking on feed name gives error' to the 'RSS Feed - Moodle News' entry, and another points from the text 'Clicking on link works' to the link <http://feeds.feedburner.com/moodlenews> within the same entry.
