Intro to Moodle_2
education, law enforcement and healthcare.
In other countries, the balance between private sector and public (or state) provision is different.

In the USA, much of the healthca the responsibility of the private sector as are many other activities which a in the UK by the state.
The discussion question is:
1. Consider the following list c otential 'market failure': The lack of good quality and timely info le to both 'buyers and sellers'
2. Inappropriate levels of competition amongst both buyers and sellers
3. The existence of so-called externalities (spillover effects) such as pollution and broader community benefits
4. An unacceptable (unfair?) distribution of income and wealth
5. A lack of mobility in the factors of production so that production can adjust to changes in demand
6. A lack of stability to encourage longer term planning
7. Monetary self interest (e.g. profit, pay) as the principal motivating force for behaviour
In your first post, choose one instance and explain with examples how this can lead to a 'failure' in a market economy.
In subsequent posts, identify a policy which governments could introduce to correct this problem and critically discuss the factors which may determine the likely success of the policy you have chosen.
Guidelines for discussion responses:
Your initial posting should be a couple of hundred words
You should respond to the postings of the other students several times
Please try to limit your posts to 200-300 words maximum, so that others may be
