

New Feature Request: Assignment Resubmission System

Fernando Oliveira - Draft 2

The following document contains a number of suggestions that would bring about the Assignment Resubmission System that is described in the Moodle Tracker. Please visit this link: <http://tracker.moodle.org/browse/MDL-36804> to provide feedback or alternative ideas.

1. Assignment Settings: Controlling the Resubmission Options:

The image shows two sections of the Moodle Assignment Settings interface. The top section is titled "Resubmission Settings" and contains two dropdown menus: "Allow resubmissions:" and "Maximum number of resubmissions:". A red box labeled "new section" has an arrow pointing to the "Resubmission Settings" header. A second red box, containing a list of options, has an arrow pointing to the "Allow resubmissions:" dropdown. The bottom section is titled "Grade" and contains four dropdown menus: "Grade" (set to 10), "Grade to pass", "Grading method" (set to "Simple direct grading"), and "Grade category" (set to "Uncategorised"). A red box with explanatory text has an arrow pointing to the "Grade to pass" dropdown.

Resubmission Settings

Allow resubmissions:

Maximum number of resubmissions:

Grade

Grade

Grade to pass

Grading method

Grade category

new section

Options:

- No
- Yes
- Yes, until grade-to-pass is met
- Yes, until custom grade is met

Add "grade to pass" option here. This option already exists in grade config screen, which is hard to find. Having it available here makes it easier/quicker to control Resubmission Settings (shown above).

* Currently, the grade-to-pass setting is only accessible via the gradebook: <http://screencast.com/t/8cy7d0S6d>

2. Assignment Resubmission History: Student View
