

# New Feature Request: Assignment Resubmission System

Fernando Oliveira - Draft 3

The following document contains a number of suggestions that would bring about the Assignment Resubmission System that is described in the Moodle Tracker. Please visit this link: <http://tracker.moodle.org/browse/MDL-36804> to provide feedback or alternative ideas.

## 1. Assignment Settings: Controlling the Resubmission Options:

The image shows a screenshot of the Moodle Assignment Settings page. A red box labeled "new section" points to the "Resubmission Settings" section. The "Resubmission Settings" section contains two dropdown menus: "Allow resubmissions:" and "Maximum number of resubmissions:". A red box lists the options for the "Allow resubmissions:" dropdown: "Options: - No, - Yes, - Yes, until grade-to-pass is met, - Yes, until custom grade is met". Below this is the "Grade" section, which includes "Grade" (set to 10), "Grade to pass", "Grading method" (set to "Simple direct grading"), and "Grade category" (set to "Uncategorised"). A red box points to the "Grade to pass" dropdown with the text: "Add 'grade to pass' option here. This option already exists in grade config screen, which is hard to find. Having it available here makes it easier/quicker to control Resubmission Settings (shown above)."

**Resubmission Settings**

Allow resubmissions:

Maximum number of resubmissions:

**Grade**

Grade

Grade to pass

Grading method

Grade category

**Options:**

- No
- Yes
- Yes, until grade-to-pass is met
- Yes, until custom grade is met

Add "grade to pass" option here. This option already exists in grade config screen, which is hard to find. Having it available here makes it easier/quicker to control Resubmission Settings (shown above).

\* Currently, the grade-to-pass setting is only accessible via the gradebook: <http://screencast.com/t/8cy7d0S6d>

## 2. Assignment Resubmission History: Student View

(assignment content is shown here)
