## Welcome to the Activity Examples course!

This course contains working examples of databases, glossaries and quizzes shared by other Moodle users from around the world. They were originally donated and hosted on the Moodle Exchange course on [Moodle.org](#), curated by Paula Clough.

If you'd like to use any of the glossaries, databases or quizzes in your own Moodle course, you'll find download links in the description of each item. Many are hosted in the [Moodle content database](#) on [Moodle.org](#).

**NOTE:** *Because of the large volume of shared activities we're using the one section per page course setting.*
